

DENEL AEROSPACE – OVERBERG TEST RANGE

(BREDASDORP – WESTERN CAPE)

Re-Advertisement

Meteorologist

Denel is an Employment Equity employer that gives preference to suitable candidates who add to the diversity of the company.

External applicants: If you have not received feedback within two months from the closing date, please regard your application as unsuccessful.

DEPARTMENT:	Instrumentation: Telemetry & Meteorology	JOB LEVEL:	(The decisions on the final job level will be commensurate with the experience and know-how of the successful candidate)
PURPOSE:	To study, understand, predict and supply atmospheric conditions so that test facilitators and clients can make informed decisions about weather-dependent tests or activities.		

KEY PERFORMANCE AREAS:

- Analyse and identify weather patterns so as to produce accurate and timely weather forecasts.
- Collect, validate and analyse weather data in order to submit reports to relevant stakeholders.
- Install, maintain, inspect and, where within the scope of competence, repair weather observation equipment and assist with the upgrading of meteorological systems.
- Process and analyse historical meteorological data, including surface and upper-air observations.
- Communicate and present weather data clearly, accurately and concisely to relevant stakeholders.
- Maintain accurate and reliable meteorological database.
- Keep abreast of developments in weather technologies, forecasting techniques and scientific research.
- Conduct upper-air observations including balloon soundings.
- Develop, enhance, evaluate, maintain and support meteorological software applications.
- Ensure that weather instruments calibrated, maintained and functioning within required specifications.
- Provide meteorological consultancy services on behalf of OTR to local and international clients.

QUALIFICATIONS AND / EXPERIENCE:

- National Diploma in Meteorology or an equivalently recognised qualification.
- Five to ten years' experience within a professional Meteorological environment.
- Proven experience in conducting meteorological research and climate studies, including the analysis of long-term weather patterns, climate variability and trends.
- Computer literate, with proficiency in Microsoft Office applications: Word, Excel, PowerPoint and Outlook.
- A valid code B driver's license.

JOB RELATED PERSONAL ATTRIBUTES

- Analytical, innovative and thorough approach to technical and operational tasks.
- Ability to work effectively both independently and as part of a multidisciplinary team.
- Well-developed interpersonal and communication skills.
- Ability to work effectively under pressure and consistently meet deadlines.
- Willingness and ability to work overtime when operational requirements dictate.
- Ability and willingness to work in confined spaces, where required.
- Good command of English, with effective written and verbal communication skills.
- Physically fit and capable of performing the inherent physical requirements of the position.
- Comfortable working at heights and able to perform duties safely in elevated work environments.
- No history of back or knee problems

CLOSING DATE:

09 October 2026
