

Bursaries & Internships

Denel Dynamics is a division within the Denel Group and is involved in the design, development, production and support of tactical missiles, precision-guided weapon systems and unnamed aerial vehicles for South Africa and the international market. Denel Dynamics is offering bursaries to top performing South African students who have a passion for engineering in a high-tech environment. The following Engineering disciplines will be considered for the programme:

- Electronic Engineering
- Mechanical Engineering
- Aeronautical Engineering
- Mechatronic Engineering
- Industrial Engineering
- Computer Engineering

The bursary program will begin in 2017 and will cover:

University Tuition, Books, Accommodation, Computer Allowance and Stipend Allowance.

An individual is eligible to apply for a BURSARY provided the following minimum conditions are met:

- Should be studying/intending to study a BEng degree or National Diploma (in one of the fields listed above) at a recognized South African University.
- Has not received any other bursary for the same period for which they are applying as a South African citizen.
- Has not failed any subjects and maintained an average of 60% for the current academic year.

Please send all applications to http://deneldynamics.gradx.net/register

Closing Date: 15 August 2016
