

# COMPANY GROUP STRUCTURE

DENEL AVIATION	DENEL SAAB AEROSTRUCTURES (Pty) Ltd	DENEL DYNAMICS
DENEL MECHEM	TURBOMECA AFRICA	DENEL LAND SYSTEMS
CZ OPTRONICS (Pty) Ltd	DENEL MUNITIONS	

# EXPERIENCE IN THE LAST 5 YEARS

- Fixed Wing:** B707/B727/B737, Cheetah, C130, L100, Hawk, Gripen
- Rotary Wing:** Alouette, Puma, Oryx (OEM), Rooivalk, A109, AS350
- Component Workshops:** Transmissions & Propellers, Hydraulics & Pneumatics, Landing Gears, Wheels and Brakes, Composites, Avionics/Electrical/Oxygen, GS&TE Calibration
- Engineering and Flight Test Centre:** Design Authority (Oryx), MRO Engineering Support, Avionic HW/SW Upgrades, Mission Planning and Debriefing, Specialist Aerospace Services, Flight Testing, Information Management, Qualification
- Rooivalk:** OEM, Design Authority, Integration, Qualification, Product Support and Programme Management
- Denel Aviation Manpower Group (AMG):** Manpower supply to the SAAF and Contract Professionals

# ACCREDITATIONS

- Quality control system in accordance ISO 9000 standards
- ISO 9001:2000 (BV)
- AS 9100:2001 (Aerospace Standard - BV)
- SA CAA Part 145 (AM0 262)
- EASA Part 145 (EASA 00724)
- SANAS - Calibration Laboratory (ISO/IEC 17205)
- Eurocopter Accredited Repair Centre (O, I & D Level)
- AgustaWestland A109 (A/988)
- BAE Systems (BAE/ASG/50069/MAA)
- TAA Technical Assistance Services
- SESA Specialising Engineering Services
- SSA Support Services Agreement
- DO178B Software Development

# DENEL AVIATION TRAINING ACADEMY

- The Denel Aviation Training Academy is an approved training provider accredited by TETA and SACAA – ATTC-004 and AC-2. The Training Academy acts as a support tool for Denel Aviation to provide much needed skills in the MRO sector.
- Provide Ab initio Technical Training in aviation to apprentices and operators.
  - Advanced Training courses for Technicians (Part 66)
  - Specific Aircraft Type Training for Military and civilian Aircraft
  - Denel Aviation Training Academy Youth Programme – Upgrade academic qualifications in Science and Maths for Career Development

DENEL AVIATION

# 40 YEARS AND BEYOND

Our 40 year history dates back to the formation of Atlas Aircraft Corporation in 1965. It was established primarily to manufacture military aircraft and various avionic systems for the South African Air Force (SAAF). In 1968 it was brought under the control of Armscor, a government sponsored South African conglomerate. In 1991, Denel Pty (Ltd) was established, in order to absorb all previous Armscor manufacturing entities. The remainder of Armscor served as the sole procurement entity for the South African National Defence Force (SANDF).

In 1992, Atlas Aircraft Corporation was absorbed into the Denel Group, becoming Denel Aviation, a division within a subsidiary of Denel. It continued to serve the SAAF in manufacturing and subsystems. Today, Denel Aviation is primarily focused on maintenance, repair and overhaul of both Rotary and Fixed Wing Aircraft, in support of the SAAF, their primary customer. In addition, Denel Aviation also serves other local and international secondary market markets. The company employs over 1250 people and generates an annual turnover in excess of R700m. Our staff are a highly specialised, dedicated team, with a reputation for excellence in the market of world class MRO support.

THEY CALL THEM  
FLYING MACHINES  
SO WE KEEP THEM  
THAT WAY.

Our expertise encompass; Design,  
Development, Integration, Manufacturing,  
Upgrade, Servicing and Overhaul of  
Aircraft Components, Aircraft  
Systems, Aircraft Ground Support and  
Test Equipment. Our portfolio of  
specialised services is built on 40 years  
of experience and our tenacity to solve  
the greatest of challenges. Our primary  
offerings encompass an all round service  
in MRO, excellent turn-around times, the  
provision of mobile service teams and  
specialised services in engineering,  
design and development. Our business  
units provide a total MRO solution to  
clients and extended services with  
partnerships through our international  
affiliates. An on-site Aviation Training  
Academy with courses certified by the  
SA Civil Aviation Authority.
